Lakeshore Secures Speaker for Open House

Dr. Blair Feltmate, Head of the Intact Centre on Climate Adaptation at the University of Waterloo will speak on the Growing Threat of Basement Flooding: The Value of Home Flood Protection at the upcoming Storm Water Management & Climate Change Open House on November 14 in Lakeshore.

The primary purpose of the Intact Centre is to mobilize practical and cost-effective means to help de-risk Canada from the costs associated with extreme weather events. Dr. Feltmate is Chair of the Federal Government of Canada Expert Panel on Climate Adaptation and Resilience Results.

The Storm Water Management & Climate Change Open House at the Atlas Tube Centre on November 14 will begin at 4:00 and runs until 8:30 p.m. Further details on the agenda will be provided shortly. Dr. Feltmate will speak from 6:30 – 7:30
