Attention: Regional Pesticide Specialist

To Whom It May Concern:

Re: West Nile Virus – Application of Larvicides

The Town of Lakeshore supports local action by the Windsor-Essex County Health Unit to reduce the risk of West Nile virus. As a result the Town of Lakeshore authorizes any permit application for West Nile virus control submitted to the Ministry of Environment and Climate Change from an appropriately licensed exterminator to apply a larvicide into the catch basins or surface water:

- Located within and owned by the Town of Lakeshore; and
- Located on municipal and private land that drain into storm drain system or waterways located within the Town of Lakeshore

Sincerely,

Kevin J. Girard, P.Eng.
Manager, Environmental Services Division
Engineering and Infrastructure Services

cc: Dr. Wajid Ahmed (Windsor-Essex County Health Unit)
