

## NOTICE OF FILING OF ADDENDUM

### REVISIONS AND ADDENDA TO ENVIRONMENTAL STUDY REPORT

#### TOWN OF LAKESHORE MUNICIPAL CLASS ENVIRONMENTAL ASSESSMENT NOTRE DAME STREET REVITALIZATION PROJECT UPDATE

The Town of Lakeshore retained Stantec Consulting in 2011 to complete a **Schedule B Environmental Assessment** as identified in the Municipal Class Environmental Assessment process for Municipal Road Projects (Municipal Engineers Association, October 2000 as amended in 2007, 2011 & 2015). The study took into account environmental, social and economic impacts, as well as addressed transportation and public safety needs and incorporated urban design improvements on Notre Dame Street (from Belle River to Duck Creek), and First Street (from Notre Dame Street to the VIA Rail right-of-way). The study was presented to Town Council on August 14, 2012. On August 23, 2012 the 30-day review period was initiated, and the EA was finalized shortly thereafter.

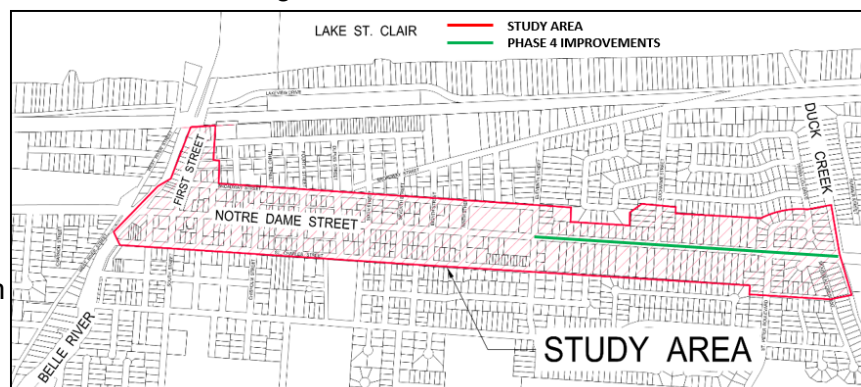

An Addendum has now been completed to the Environmental Study Report which was issued in 2012. The Addendum contains details of the changes to the Notre Dame Street Revitalization Project. The goal of this addendum is to address public concerns that do not support the construction of a proposed roundabout at Notre Dame Street / Terra Lou Drive Intersection. Following Town Council meetings and a third Public Information Centre, where the Town received public input and comments, a Proposed Change was made to the pavement alignment at Notre Dame Street / Terra Lou Drive and Notre Dame Street / Ducharme Street intersections. The proposed change maintains the current two lanes of traffic and allows for parking lanes on Notre Dame while narrowing the intersection at Terra Lou Drive and Ducharme Street to promote traffic calming.

By this Notice, the Addendum is being placed on the public record for review in accordance with the requirements of the Municipal Class Environmental Assessment, Revisions and Addenda section. Subject to comments received as a result of this Notice, the Town of Lakeshore intends to proceed to construction of this project in the summer of 2019. Please note that only the changes proposed in the Addendum are open for review.

The Addendum is available for review at the following location:

Town of Lakeshore  
Municipal Office  
419 Notre Dame Street  
Belle River, ON  
N0R 1A0  
(Mon-Fri, 8:30am-4:30am)

A digital copy of the Addendum  
will be available for review at:

Interested persons may provide written comment to the Town of Lakeshore's Clerk (address above) within 30 calendar days from the date of this Notice. If concerns regarding the revisions to this project cannot be resolved through discussion with the Town of Lakeshore, a person may request that the Minister of the Environment make an order for the project to comply with Part II of the Environmental Assessment Act (referred to as a Part II Order), which addresses individual environmental assessment. Requests must be received by the Minister at 135 St. Clair Avenue W., 1st Floor, Toronto, ON M4V 1P5. Within 30 days from the Notice. A copy of the request must be sent to the Town of Lakeshore Clerk. If no request for Part II Order is received, the project may proceed to construction as outlined in the Addendum.

This Notice Issued February 9, 2019
